**D. Identify Sections of the Bill That Will Generate the Additional Workload or Cost Increase**

Identical to original, except for addition of lines 74-76 (see E), apparently to close a perceived loophole.

**E. Expenditure Impact Details (*Ties to totals in Section C*)**

Complete text of substantive changes:

Lines 63-67: A board may not: discriminate against a student applying for enrollment whose intent is to participate in varsity athletics; or reject an application for enrollment solely based upon a student's intent to participate in varsity athletics.

Lines 74-76: A student who transfers to a public or private school does not lose eligibility to participate in extracurricular activities for the sole reason that the student's intent or interest in participating in an extracurricular activity is a reason for the transfer.

**F. No Fiscal Impact or Will Not Require Additional Appropriations?**

This bill does not affect the USOE. It seems unlikely to have a fiscal impact on LEAs. Assuming that LEAs currently insist on knowing the extracurricular intentions of students before they approve or deny a transfer, this bill would essentially impose a "don't ask, don't tell" policy. The law already prohibits consideration of "athletic or other extracurricular ability" (Line 47) as a "standard" in deciding transfer applications. The substitute goes further in making it clear that should such information as intention to participate become available, it cannot be the basis for declaring a student ineligible.

**G. If Bill Carries Its Own Appropriation:****H. Impact on Local Governments, Businesses, Associations, and Individuals**

Local Governments:

Businesses and Associations:

Individuals:

This is a draft fiscal note response from the Utah State Office of Education (USOE) and may be revised in the future.

This fiscal note input draft does not imply endorsement of this bill by the State Board of Education or USOE.
